I love Genealogy. I enjoy, the process, the success and even the setbacks.</p>	<p>Presentations:  Attacking the "BOX" - All that stuff you inherited can be added to a genealogy file.  Beginner Class - What is Genealogy? The basics of getting started. Collecting, Organizing, Documentation, Computer Software, Advice  Basic Census - What you can get and what you can expect. Why you can't find grandpa when you know he was there. Census in general and specifics. Documentation  Collecting "Genealogy Stuff" - Documents, Pictures, Histories, Mementos  Digitizing Photos - Not everyone can have the original. How to make a good copy available. Scanners and software.  DNA - Just the basics for a genealogist, not a biology class. How its collected, what you get back, what to expect and what not to do. How to get the most from the test to save some money.  Documentation - Why, How, Text Book and Functional. My way and the "right way", mistakes you will regret if you make them.  Expanding the Facts into a Story - How to breathe life into the story without stretching the truth.  Family History Library, Salt Lake City, Utah - This is not a browse the shelves kind of library. How to find what you need. A more specific version of getting ready for "The Trip."  Genealogical Proof - Evaluating sources and resolving conflicting information. Understanding this is the beginning of genealogical enlightenment  Genline - Swedish research and the wonderful records available  Getting Everything from a Source - Read, Reread, Understand, and Comprehend. Often a genealogical gift is overlooked because it is a fact we were not looking for.</p>	<p>AV / Equipment:</p>	<p>Fee: \$50   Travel Restrictions: Will travel, but not in bad weather. If over 100 miles, will add a mileage fee.</p>

Getting Past Dead Ends - Techniques, re-evaluation and out flanking obstacles that can be solved.

Getting Started - Expanded from the Beginner Class. Getting it right the first time saves hours and years of frustration.

Getting ready for "The Trip" - Going to Salt Lake or other research trips. All the before you go things that will help you get what you want, what to take and why.

How To – Question & Answer/Brainstorming – This a free for all. Bring questions and problems and we will address them as a group. You will leave with a new appreciation of how smart your friends are and how smart you are and a few new ideas.

How to get People to Talk - How to get someone who does not remember or never knew anything to give you the goods. Nearly everyone has a story you just need to get it from them.

Indexes - Why they don't work and why we can't live without them. What is an Index? How does it work, where do they come from, problems, strengths, evaluating if a particular index is likely to help you.

Internet and Websites - Tools, Search engines, and favorite sites. Some "how-to" ideas and some "getting to" places you never knew about and what to do when you get there.

Land Records - The basics, kinds, archives, what you probably will and won't find. Why you need to look here.

LDS Sites - Familysearch.org has a new look and lots of new stuff. It's here for members and will be available for non-members soon.

Organizing your Paper and Stuff - get organized, everybody's New Year resolution. Schemes that allow you to access the stuff you found

Research in Specific Areas – How to get started in a new area -- areas in the US, Great Britain, Scotland, Ireland, Canada and others.

Software – Choosing a genealogy program and evaluating "Add Ons". Yes, I own a lot of software that I do not use.

Tax Records - Overlooked records that are like an annual census

The Big Four Records in American Research – Get started using Census, Vital, Probate, Land and Tax Records.

Time Lines - A tool for data organization and variation. Don't miss out on making this tool work for you.

Tombstones - Accepted practices, good and bad, Photography, Rubbings, a little on preservation and restoration.

Using the Features of Your Software – attaching source, adding photos and sound clips, techniques and ideas, making it yours.

Using the Library – Collections, Interlibrary loan, The Reference Librarian

		<p>Vital Records - Overview, Kinds, Places, Finding. Basic things we all should know about.</p> <p>Who was Asa Phillips? A New Look at Dead Ends With an Emphasis on Documentation and the Genealogical Proof Standard</p> <p>Migrations and Exoduses; Why People Move</p> <p>- One genealogical fact is people keep moving. Almost nobody still lives in the cave his caveman ancestor claimed.</p> <p>If there is something you can't find another speaker for, suggest it to me. If it is something I can handle, I will prepare it.</p>
